EDUCATION

Bachelor Of Technology <i>Computer Science</i>	2022 – 2026
Kalinga Institute Of Industrial Technology	CGPA: 9.52
CBSE, Class 12 <i>Major: Physics, Chemistry, Mathematics</i>	2020 – 2022
Kalyani Public School	Percentage: 93.4
ICSE, Class 10	2009 – 2020
Agrasain Balika Siksha Sadan	Percentage: 99.2

WORK EXPERIENCE

Optum Global Solutions Pvt. Ltd. (United Health Group)	June 2025 – August 2025
Technology Development Intern	Hyderabad, Telangana
- Techstack Used: Python, Spring Boot, Docker, Flask, React, Git Actions, Github - Built ML-based compatibility and suggestion model to assess the impact of parent dependency upgrades and recommend safe transitive versions. - Created a regression model to predict CVE escalation timelines using historical CVSS scores and NVD metadata. - Integrated Github, JFrog scan, and CVE data to stimulate upgrade effects and validated model suggestions through non-production deployments.	

SKILLS

Programming: Python, Java, C, Javascript
Frameworks: Next.js, Node.js
Front-End: HTML5, CSS3, TailwindCSS, Typescript, Bootstrap
Databases: MySQL, MongoDB
Developer Tools: Git, Github, Visual Studio Code, Figma
Coursework: Operating Systems, Database Management System, Computer Networks
Soft: Communication, Time Management, Content Writing, Adaptability, Teamwork
Languages: English (Professional), Hindi (Professional), Bengali (Native)

PROJECTS

Weather Website <i>HTML, CSS, Javascript</i>	June 2024
Developed a real-time weather website integrated with OpenWeather API to fetch and display temperature, humidity, and wind speed.	
SFM Stock Price Prediction <i>Python, React</i>	January 2025
Implemented a State Frequency Model for next-day price prediction, backed by a dynamic front-end providing visual analysis of technical indicators.	
AI-based Grievance Redressal System <i>NLP, Python, React</i>	March 2026
Engineered an AI-enabled complaint management system with NLP classification, priority detection, duplicate analysis, and role-based dashboards.
